

# AccuPro One

the number one spreader  
for landscaping and gardens

## The AccuPro One is a spreader specifically designed for landscaping and garden areas

This easy-to-use pedestrian spreader provides uniform coverage for your lawn regardless of its size.

The AccuPro One is the latest addition to ICL's range of high quality spreaders.

### Key benefits

- Made from sturdy, quality materials
- Easy to set-up and accurately spreads a range of granule sizes
- Hopper capacity of 20 kg
- Pneumatic tyres for easy manoeuvring without leaving track marks
- Spread width of 1.5-3.0 m depending on granule size and spreader settings
- Optional rain cover offers extra protection
