

Maxicrop[®]

PROFESSIONAL

ORIGINAL SEAWEED EXTRACT

- **Maxicrop Original Seaweed Extract is a plant growth stimulant, for use in organic growing systems** a pure extract of seaweed in an easy-to-use liquid form.
- **Ideal for flowers, fruit, vegetables, shrubs and trees for professional use.** Stimulates natural growth processes: seed germination, plant rooting and establishment.
- **Gives strong growth. Improves resistance to environmental stress.** Use early as a root drench or foliar spray and later, with fertilisers, to help ensure maximum nutrient uptake.

APPROVED FOR ORGANIC GROWING

 **Valagro[®]**

Where science serves nature

DIRECTIONS

- Add required amount to water and stir well • Apply using watering can, fine sprayer or hose-end dilutor

TREATMENT	DILUTION IN WATER	APPLICATION
GERMINATING	10 ml in 9 litres (2 gallons)	Soak seeds for 12 hours before sowing.
PROPAGATING	20 ml in 9 litres (2 gallons)	Apply as a root drench each time water is needed.
TRANSPLANTING	20 ml in 9 litres (2 gallons)	Drench rootball in solution before planting out.
GROWING ON	45 ml in 9 litres* (2 gallons)	Apply as a root drench or foliar spray, thoroughly wetting leaves, every 7 days.
MATURE PLANTS	45 ml in 9 litres* (2 gallons)	Apply as a root drench or foliar spray, thoroughly wetting leaves, every 10 to 14 days.
FRUIT CROPS	45 ml in 9 litres* (2 gallons)	Spray several times before and during flowering to improve fruit set.
LAWNS & TURF	50 ml in 9 litres (2 gallons) per 20 sq. metres	Apply monthly during the growing season to aid turf health and stress resistance.
COMMERCIAL CROPS	3 litres per ha in 200-500 litres of water (can be increased to 4-6 litres per ha on crops under stress)	Apply every 10 to 14 days, or as required

WARNINGS

HANDLING: Wash hands after use. **STORAGE:** Keep in original container and reseal after use. Store out of direct sunlight, above 0°C and below 30°C. Keep out of reach of children and pets. **MIXING:** Shake before use. Once diluted, use straight away and flush equipment and pipework with water after use. **TANK MIX COMPATIBILITIES:** Due to the wide range of different spray products available, it is impossible to test all combinations and we cannot accept any liability for any loss or damage. If in doubt, carry out a bucket test to check compatibility. Do not apply under adverse weather conditions, including frost, heavy rainfall, drying winds, extreme heat and extreme drought.

* 45ml in 9 litres = 1 part Maxicrop to 200 parts water.
